

SETTING UP VIRTUAL ESL CLASSES FOR YOUR FAMILY

Learning English is essential for your family to thrive in their day to day lives. RAA's most intense English classes are one-on-one, 40-60 minute online classes with a teacher, twice a week.

Students can be matched with a volunteer teacher once the following tasks are completed:

1. Set up reliable internet access in their home
2. Schedule a time with Salma to assist with teaching necessary digital skills needed to access their student account on Burlington English, Zoom video/ audio and successfully access their virtual class to meet their teacher.

3. Students must have schedule availability to meet twice a week consistently with a teacher.
