

How To Get Low Cost Internet

Note: Miami-Dade County Schools have ceased offering free WiFi hotspots per the prior program. However, this does change periodically. For updates on the status of hotspots through Miami-Dade Public Schools, visit the school district website [here](#).

- According to the **Miami-Dade Public Schools** 2021-22 Instructional Continuity Plan, the district received 1,000 additional smartphones that can be used as internet hotspots for K-12 students on a “first come first serve” basis.
- **Xfinity** provide free WiFi hotspots across the county for anyone who needs access to WiFi regardless of if the individual is an Xfinity user.
- **Comcast** Internet Essentials is free (for the first 60 days) and available for \$9.95/month for low income households.
- **AT&T** provides the “Access from AT&T Program” that gives internet access for qualifying limited income households for \$10/month and 2 months free for new customers.
- **Miami-Dade and Broward County Public Libraries** offer free WiFi at all their locations in addition to computer access.
- The **Broward County Board of Commissioners** provides free access to WiFi using the network “BC Public.” This network is located downtown near the BCC/FAU Campus.
